

POUKA ART & PHOTOGRAPHY

PRODUCTS

CANVAS GALLERY WRAPS - The image is professionally printed on a satin finish canvas and hand-sprayed with a protective UV coating before being wrapped around a hollow, inflexible 1 1/2" solid surface base. The solid base prevents your canvas from sagging or being punctured like a traditionally stretched canvas.

FRAMED CANVAS - If you'd like to dress up your canvas, consider adding a frame. Canvases are framed in a 2" traditional frame and shipped to your door. Consider upgrading to a 4" frame for more impact.

DIY FINE ART PRINTS - Are you particular about your decor and would prefer to mat and custom frame your own print? No problem. I offer my images printed on fine art paper in standard sizes, 8x10 to 16x20.

FRAMED PRINTS - Your painting is professionally printed on fine art paper, an acid-free 100% cotton rag which is archival for up to 100 years, then custom matted and framed.
